Notes: Sold in full bundles only. Maximum height – 36" (under optimum conditions) but can be engineered for walls that require to be higher. Higher walls can be achieved using geogrid reinforcement. Automatic setback is 3/4" per row. Engineering services are available. For more information, samples or custom options, please contact your Unilock Representative or call 1-800-UNILOCK.

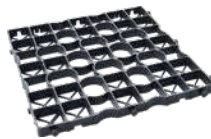

U-GRIP™ BASE UNIT
19 x 14 x 2 1/4"
482 x 355 x 55mm

COLOR	SKU
Natural	0517UB0211105-0

- Creates a revolutionary Reinforced Soil Structure (RSS) with high tensile and compressive strength to maximize the performance of pavement structures.
- Extremely permeable, long lasting, durable and environmentally friendly. Lightweight and easy to handle.
- Simple and quick installation.
- Allows for easy repairs / adjustments after installation.

*Colour selection should be chosen from actual samples.

Notes: SienaStone™ corners are sold as double units - one left and one right. Wall units are only stocked in Natural. Vertical units are special order only; minimum quantities and lead times apply. Automatic setback is 1" per row. Engineering services are available. Closed-end coping is available in rockfaced on the end upon request. An additional cost applies to rock facing units and 48 hours notice for rock facing units is required. For more information, samples or custom options, please contact your Unilock Representative or call 1-800-UNILOCK.

U-CARA® WALL MOUNT SYSTEM

The U-Cara Wall Mount system allows you to put the finishing touches on a project by cladding existing structures like unsightly exposed foundation areas or concrete steps with U-Cara fascia panels.

COMPONENTS	SKU
Horizontal Adjustable Rail (2 x)	RS-UCARA000026
Horizontal Rail 32.75 (2 x)	RS-UCARA000028
U-Cara Rail 8'	RS-UCARA000037
Handrail Angle	RS-UCARA000055

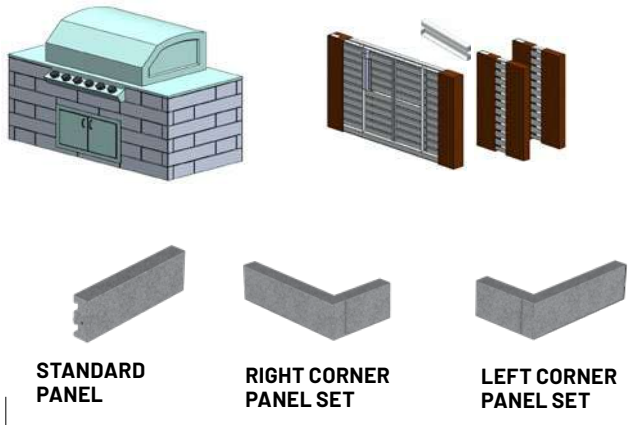

SIMPLE 3 STEP PROCESS:

- 1 Mount Alignment Bar
- 2 Attach U-Cara Mount Rails
- 3 Hang U-Cara Fascia Panels

U-CARA[®] MODULAR SYSTEM

The U-Cara Modular System offers a variety of aluminum frames that can be mixed and matched to construct vertical features including grill islands, bars, backsplashes, fire places, pillars, and more. For additional products and detailed installation information, contact your Unilock Representative.

UNILOCK® COLLECTION OF

Hardscape Accessories

ADVANCED STRUCTURAL FILL SYSTEM

Reduce excavation time, materials and labor with U-Core, exclusively from Unilock.

U-Core is a patented, lightweight geofoam block designed to replace traditional gravel backfill in applications such as steps, raised patios, walkways and more.

GREATLY REDUCES or eliminates settlement

SOLUTION FOR TIGHT ACCESS areas where transporting equipment and tools may be challenging

INSTALL IN MINUTES with the use of UCore Connectors, locking units together to create a solid raft

LESS EQUIPMENT ONSITE = less wear and tear on machinery typical for transporting, spreading and compacting gravel backfills

LESS GRAVEL DUST, mess, and clean up after projects

REDUCE YOUR COMPANY'S CARBON FOOTPRINT; estimated five to seven times the number of gravel trucks to deliver same volume of UCore

U-Core is proudly manufactured in Ontario, ensuring shorter lead times and reduced shipping costs. By keeping production close to home, we maintain strict quality control while minimizing environmental impact.

STEPS

U-Core is designed to replace all backfilling, compacting and base leveling (at every step) required in traditional step construction.

With U-Core, the step framework can be constructed IN MINUTES, while significantly reducing the potential for short or long-term settlement.

RAISED PATIOS

U-Core provides a fast, efficient and easy way to place large volumes of structurally stable fill in a fraction of the time, **reduce loads on foundation soils by 90%**, and eliminate lateral pressure on existing structures.

DRIVEWAYS, WALKWAYS & PATIOS

Even where significant fill volumes are not required, such as the base of a walkway or a patio, U-Core can be used to **speed up installation and reduce settlement potential**.

GEOFOAM	SKU #	HEIGHT (mm/in)	WIDTH (mm/in)	DEPTH (mm/in)	WALL SYSTEM

Please contact your Unilock Representative or visit <https://contractor.unilock.com/product/unilock-ucore/> for more information.

Give your customers extra **peace of mind with the latest Unilock DriveGrid system**, powered by Tensar's H-Series range.

A paver driveway installed with Unilock DriveGrid System will be stronger and less expensive too. This new geogrid follows extensive years of research and development by Tensar.

Supported by its own Environmental Product Declaration (EPD), Unilock DriveGrid's new H-Series range has been developed specifically to support sustainable product specifications.

As with our other Next Generation products, Unilock DriveGrid can reduce initial and lifecycle costs, reduce construction time and provide sustainability benefits on a project-by-project basis.

Now you can say GOOD BYE to rutting with Unilock Drive Grid!

PROVEN TECHNOLOGY

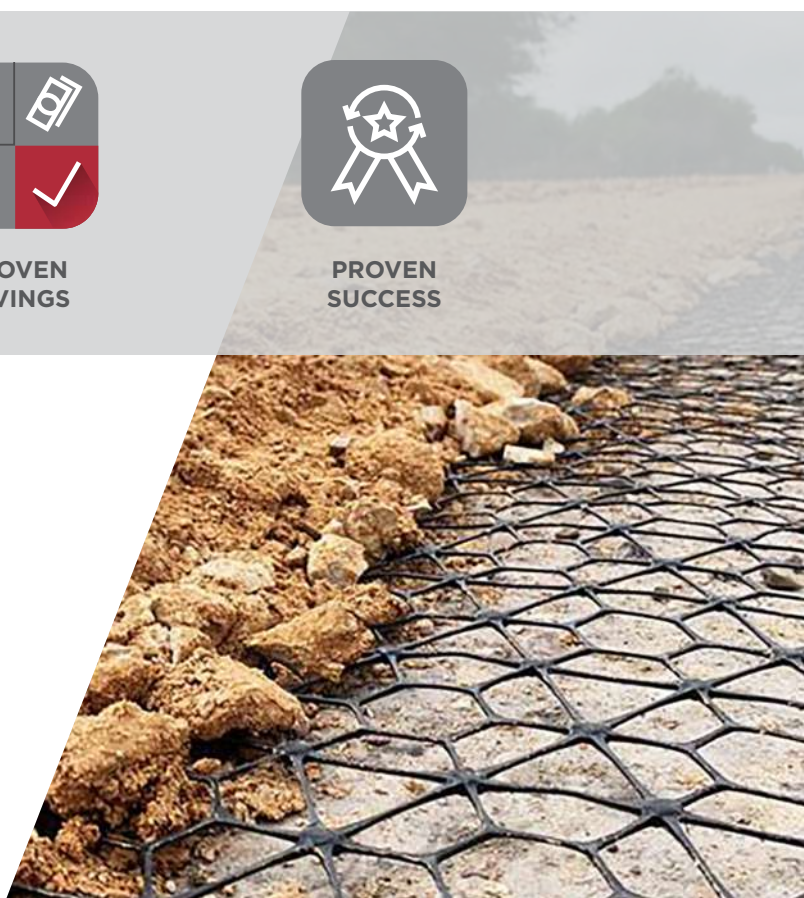

PROVEN SAVINGS

PROVEN SUCCESS

Find out more on Unilock DriveGrid and see how we can save you time and cost on your next project.

UNILOCK DRIVECEL™

Save excavation time, material, labour costs and **add more revenue to your season with DriveCel.**

Unilock DriveCel is a rigid, geo-cellular confinement system designed for soil reinforcement and load distribution.

Made from 100% recycled low-density polyethylene, DriveCel boasts remarkable durability, with resistance to biological, chemical, and UV degradation.

EASY TO INSTALL

FLEXIBILITY

HELPFUL TOOLS & SUPPORTING PRODUCTS

HARDSCAPE EDUCATION CENTER

Whether you're looking for product knowledge, hardscape training and certification, installation information, or hardscape business support, the Hardscape Education Center contains a vast collection of videos, downloadable PDF's, and articles to help you run a more efficient and profitable hardscape business.

A sophisticated construction altimeter, U-LEVEL is a grade measurement instrument, ideal for your hardscape design, layout, and installation projects. It's used to record elevations, and can help you make more accurate calculations during excavation for, and construction of, steps, landings, patios, retaining walls and more.

Find all the Unilock how-to videos you could ever imagine on our very own YouTube channel - including our Contractor Advantage Canadian Jobsite Edition Series! Everything from how to prepare your base, to choosing the right products, to finishing your project with the right sands and sealers.

Learn about the Unilock Transferable Lifetime Guarantee - our commitment of quality and strength. We stand behind every stone we make, and this has been a part of our commitment to our customers for over 50 years.

UniLyft by Unilock is a paver laying assist machine that will transform the way you install pavers and walls. Whether you operate a large company with an extensive team or you run a three-person operation, UniLyft will benefit your business in two specific ways. It will significantly reduce the time required to complete projects, and your staff will be both safer and less physically exerted during the paver installation process.

Uvision 3D Landscape Creator Software is the most comprehensive 3D Landscape design tool available in North America. It allows you to design, sell and execute landscape projects of any size. With a robust library of Unilock pavers and walls coupled with 15,000 other hardscape and softscape assets, Uvision 3D Landscape Creator helps bring your client's ideas to life in both 3D and 2D simultaneously.

POLYMERIC SANDS & SEALERS

Make sure you're putting the best finishing touch on your hardscape job. Learn how to upsell the project with the proper sands and sealers. Offering these services also gives contractors another way to satisfy their customers and increase their revenue at the same time. Be sure to visit the Hardscape Education Center for best practices when it comes to sands and sealers.
