

# PISA SMOOTH<sup>®</sup>

## ABUTTING EXISTING STRUCTURE

REF: Detail\_Pisa Smooth\_Abutting Existing Structures

Notes:

1. Retaining Wall and existing abutting structure must remain structurally independent.
2. Contractor must ensure that wall of existing structure is capable of supporting additional weight of abutting Retaining Wall. (i.e. basement or foundation wall will be surcharged due to self weight of wall and soil abutting it).

Engineering design by RisiStone Inc.
