## PISA XL®

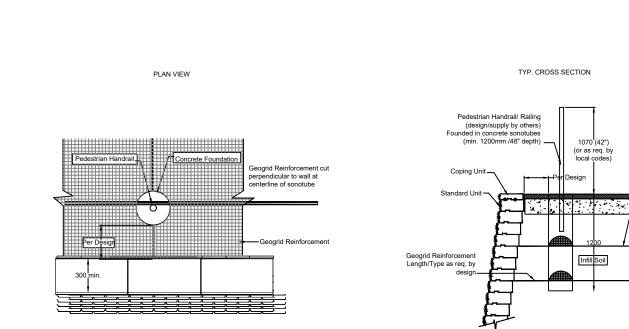

REF: Detail\_Pisa XL\_Chainlink or Handrail on Top of Grid Wall

Geogrid reinforcement cut perpendicular to wall at centreline of post. Geogrid

is folded around post and

laid flat in front and behind.

## WALL W/ CHAINLINK FENCE PEDESTRIAN GUARDRAIL (TYPICAL)

Notes

1. Concrete sonotubes to extend a minimum of 1200mm (48") below grade.

2. Sonotubes must be placed as retaining wall is constructed.

3. Geogrid reinforcement to be cut perpendicular to wall face at centerline of sonotubes.

Engineering design by RisiStone Inc.
