PACKAGING

| | PILLAR CAP 28" | COPING 24" |
|---------------------|----------------|------------|
| UNIT THICKNESS (MM) | 100 | 60 |
| LAYERS PER BUNDLE | 4 | 6 |
| FCFT PER BUNDLE | 3.06 | 21.62 |
| FCFT PER LAYER | 0.77 | 3.60 |
| FCFT PER UNIT | 0.77 | 0.60 |
| UNITS PER BUNDLE | 4 | 36 |
| UNITS PER LAYER | 1 | 6 |
| LBS PER BUNDLE | 935.26 | 2,044.04 |
| LBS PER LAYER | 233.82 | 340.67 |
| LBS PER UNIT | 233.82 | 56.78 |

INSTALLATION NOTES

Architectural Pillar Cap and Coping

APPLICATIONS – This non-slip surface texture is especially ideal for pool edge coping and step treads, but is also perfect for any project requiring wall coping and capping of pillars. Architectural Coping and Pillar Caps have similar attributes to our Arcana slabs, and are able to provide a complete pool deck solution.

CONNECTION – Non-mechanical connection. Use concrete adhesive specifically designed for connecting modular concrete units. Always read adhesive manufacturers' directions prior to gluing.

HANDLING – Placement of the cap onto the top of the pillar should be done with a suction lifting device (that can lift greater than 500 lbs.) or with heavy equipment straps suspended from a mini-excavator. For both the cap and coping, handle gently to avoid chipping edges.

Contact Unilock Representative for actual color samples and availability. Unilock reserves the right to change product information without notice.
