Notes: **Sold in full bundles only and is produced and sold on a required, refundable skid.** Rivercrest is recommended for walls under 2ft. Ideal for straight or curved walls, seat walls, pillars, tree rings, planters, firepits and grill islands. Integrated connectors require no pins or clips. Minimum radius using equal amounts of each unit is 1.25m / 4.1ft. Using only unit 1 & 3 a 1.055m / 3.5ft radius can be achieved. For more information, please consult the Rivercrest installation booklet. Retaining wall engineering software is also available free of charge at www.unilock.com. All measurements are nominal. Contact Unilock for more information. Unilock recommends using Ledgestone™ or Natural Stone coping for a complete and refined look.

Internal Use Only. RVC ON

Starting a Wall

Straight Wall - Align A-A / B-B

Course 2

Curved Wall - Align A-B / B-A

DESIGN STYLE

To accurately determine the number of standard and jumper units you will require, start by selecting an aesthetic option.

JUMPER UNITS

In addition to being used to enhance sections of wall, jumper units can also be used in a variety of different ways within the Rivercrest Wall system. The Jumper Unit #2 has faces on three sides making it perfect for incorporating into pillars and corners. The unit can also be used when starting and ending seat walls.

For more information please consult the Rivercrest® installation booklet.
