Conforms to ASTM C 1372
Eligible for LEED v4.1 credits - see page 19.

ALMOND GROVE

GRANITE

UNILOCK REDUCED SMOKE INSERT

SELECTED FIRE PITS AVAILABLE WITH ZENTRO TECHNOLOGY FIRE PIT INSERT

There's nothing like relaxing around a firepit to bring family and friends closer together. But with ordinary firepits, smoke always blows in someone's face - usually yours. With Unilock Reduced Smoke Inserts, stinging eyes are a thing of the past. Zentro's patent-pending technology returns smoke before it gets anywhere near your eyes. Say hello to good times and good-bye to smoke.

The following accessories are available for any fire pit kit.
Contact your local Territory Manager for details.

ROUND FIRE SCREEN
(works with Sunset Round only)

ACCESSORY POST
WITH COLLAR

Single Unit

ROMANSTACK ROUND W/INSERT
1525 x 1525 x 400mm
60 x 60 x 15 3/4"

FIRE PIT WARNING

Wood-burning fire pits must be lined with a proper metal insert or refractory (fire-rated) brick to protect the concrete components from extreme exposure to heat. Extreme heat on a concrete surface may affect the structural integrity of the concrete and can be dangerous. The floor of the fire pit should always be constructed using refractory brick or a sand bed. For your safety, always use a spark screen over the fire.

Notes: All measurements are nominal. Contact Unilock for more information.
